Copper One Inc.

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited
(Expressed in Canadian dollars)

1. Nature of operations and going concern

Copper One Inc. (the “Company”) operates under the Canada Business Corporations Act. On August 22, 2013 the Company disposed of Copper One USA, Inc., the Company’s former wholly owned subsidiary. See Note 8 for details. The Company’s wholly owned subsidiary 7231300 Canada Ltd. was incorporated on August 26, 2009. The Company’s common shares trade on the TSX Venture Exchange under the symbol “CUO”.

The Company is in the process of exploring and evaluating mineral property interests in Quebec, Canada. The Company has not yet determined whether its exploration and evaluation assets contain mineral reserves that are economically recoverable. The Company’s continuing operations, and the recoverability of the amounts shown for exploration and evaluation assets are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its exploration and evaluation assets, and on future profitable production or proceeds from the disposition of the exploration and evaluation assets.

The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements.

The condensed interim consolidated financial statements of the Company for the period ended March 31, 2015 were reviewed, approved and authorized for issue by the Board of Directors on June 1, 2015.

The Company has an accumulated deficit of \$17,114,519 as at March 31, 2015 and has incurred losses totaling \$278,800 during three months ended March 31, 2015. The Company has a need for equity capital and financing for working capital and exploration and development of its properties. Because of continuing operating losses, the Company’s continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations. These material uncertainties cast significant doubt about the Company’s ability to continue as a going concern. Management believes it will be successful in raising the necessary funding to continue operations in the normal course of operations, however, there is no assurance that these funds will be available on terms acceptable to the Company or at all.

The head office and principal address of the Company is at Suite 805, 65 Queen Street West, Toronto, Ontario M5H 2M5.

Copper One Inc.

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

2. Change in accounting policy

During the year ended December 31, 2014, the Company changed its accounting policy of capitalizing all exploration and evaluation expenditures. The Company believes expensing certain exploration and evaluation costs as incurred provides more reliable and relevant financial information. Under the new policy, the cost of acquiring prospective properties and exploration rights are capitalized. As at December 31, 2014, the Company capitalized \$990,725 in costs associated with the acquisition of Rivière Doré and Queylus properties. Exploration and evaluation costs, subsequent to acquisition, are expensed until it has been established that a mineral property is commercially viable and a mine development decision has been made by the Company. Thereafter, the Company capitalizes expenditures subsequently incurred to develop the mine, prior to the start of mining operations.

The condensed interim consolidated financial statements for the three months ended March 31, 2014 have been restated to reflect adjustments made as a result of this change in accounting policy. The accumulated effect of the change has been reflected in the opening deficit of the consolidated financial statements as at January 1, 2014.

The following is a reconciliation of the Company's condensed interim consolidated financial statements for the three months ended March 31, 2014:

Consolidated Statement of Comprehensive Loss

Net change in cash and cash equivalents	\$ (536,667)	\$ -	\$ (536,667)

3. Significant accounting policies

a) Statement of compliance

These condensed interim consolidated financial statements of the Company and its subsidiaries have been prepared in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”). The policies set out in the Company’s Annual Consolidated Financial Statements for the twelve months ended December 31, 2014 were consistently applied to all the periods presented unless otherwise noted below.

b) Basis of preparation

These consolidated financial statements have been prepared on a historical cost basis except for available-for-sale investments which are reflected at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

c) Basis of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Copper One USA, Inc (“Copper One USA”) (until the disposition of the Company’s subsidiary on August 22, 2013) and 7231300 Canada Ltd. All significant intercompany transactions and balances have been eliminated upon consolidation.

Subsidiaries

Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company and are de-consolidated from the date control ceases. The financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

Copper One Inc.

(Expressed in Canadian dollars)

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

3. Significant accounting policies

d) New and future accounting policies

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods on or after January 1, 2015 or later periods. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

IFRS 9 – Financial Instruments (“IFRS 9”) was issued by the IASB in November 2009 with additions in October 2010 and May 2013 and will replace IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9, except that an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity’s own credit risk in other comprehensive income, rather than within profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Earlier adoption is permitted.

IAS 1 – Presentation of Financial Statements (“IAS 1”) was amended in December 2014 in order to clarify, among other things, that information should not be obscured by aggregating or by providing immaterial information, that materiality consideration apply to all parts of the financial statements and that even when a standard requires a specific disclosure, materiality considerations do apply. The amendments are effective for annual periods beginning on or after January 1, 2016. Earlier adoption permitted.

IAS 24 – Related Party Disclosures (“IAS 24”) was amended to clarify that an entity providing key management services to the reporting entity or the parent of the reporting entity is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. The amendments to IAS 24 are effective for annual periods beginning on or after July 1, 2014. The Company has adopted this standard and has included the required disclosure.

4. Critical accounting judgments and estimation uncertainties

The preparation of consolidated financial statements in conformity with IFRS requires the Company’s management to make judgments, estimates and assumptions about future events that affect the amounts reported in the consolidated financial statements and related notes to the consolidated financial statements. Although these estimates are based on management’s best knowledge of the amount, event or actions, actual results may differ from those estimates and these differences could be material.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

Copper One Inc.

(Expressed in Canadian dollars)

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

4. Critical accounting judgments and estimation uncertainties (continued)

- Assets' carrying values and impairment charges

In the determination of carrying values and impairment charges, management looks at the higher of recoverable amount or fair value less costs to sell in the case of assets and at objective evidence, significant or prolonged decline of fair value on financial assets indicating impairment. These determinations and their individual assumptions require that management make a decision based on the best available information at each reporting period.

- Impairment of exploration and evaluation assets

While assessing whether any indications of impairment exist for exploration and evaluation assets, consideration is given to both external and internal sources of information. Information the Company considers includes changes in the market, economic and legal environment in which the Company operates that are not within its control that could affect the recoverable amount of exploration and evaluation assets. Internal sources of information include the manner in which exploration and evaluation assets are being used or are expected to be used and indications of expected economic performance of the assets. Estimates may include but are not limited to estimates of the discounted future after-tax cash flows expected to be derived from the Company's mining properties, costs to sell the properties and the appropriate discount rate. Reductions in metal price forecasts, increases in estimated future costs of production, increases in estimated future capital costs, reductions in the amount of recoverable mineral reserves and mineral resources and/or adverse current economics can result in a write-down of the carrying amounts of the Company's exploration and evaluation assets.

- Estimation of decommissioning and restoration costs and the timing of expenditure

Decommissioning, restoration and similar liabilities are estimated based on the Company's interpretation of current regulatory requirements, constructive obligations and are measured at fair value. Fair value is determined based on the net present value of estimated future cash expenditures for the settlement of decommissioning, restoration or similar liabilities that may occur upon decommissioning of the mine. Such estimates are subject to change based on changes in laws and regulations and negotiations with regulatory authorities.

- Income and other taxes

In assessing the probability of realizing income tax and other tax assets recognized, management makes estimates related to expectations of future taxable income, applicable tax planning opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified. Estimates of future taxable income are based on forecasted cash flows from operations and the application of existing tax laws in each jurisdiction. The Company considers whether relevant tax planning opportunities are within the Company's control, are feasible, and are within management's ability to implement. Examination by applicable tax authorities is supported based on individual facts and circumstances of the relevant tax position examined in light of all available evidence. Where applicable tax laws and regulations are either unclear or subject to ongoing varying interpretations, it is reasonably possible that changes in these estimates can occur that materially affect the amounts of income tax assets recognized. Also, future changes in tax laws could limit the Company from realizing the tax benefits from the deferred tax assets and other recoverable taxes. The Company reassesses unrecognized income tax assets at each reporting period.

Copper One Inc.

(Expressed in Canadian dollars)

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

4. Critical accounting judgments and estimation uncertainties (continued)

- Share-based payments

Management determines costs for share-based payments using market-based valuation techniques. The fair value of the market-based and performance-based share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Such judgments and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

- Contingencies

See Note 12.

5. Disposition of discontinued operations

On August 22, 2013, the Company completed the sale of its formerly wholly-owned subsidiary Copper One USA, which owns the Lone Mountain, Mimbres, Teague Springs, Twin Peaks, West Jerome, and West Safford properties, to Cornerstone Metals Inc. ("Cornerstone") and received in consideration 2,250,000 common shares of Cornerstone valued at \$202,500, plus additional consideration tied to specific properties (see note (i) below). As the additional consideration is contingent in nature, no value has been assigned to these items. The value of the contingent assets, if any, will be recorded in the period in which the value is determined. Cornerstone was a related party by virtue of Mr. Paul Cowley being on the board of both the Company and Cornerstone. 750,000 of the 2,250,000 Cornerstone shares issued were subject to a voluntary twelve-month hold period that expired on August 22, 2014.

The assets and liabilities related to Copper One USA as at August 22, 2013 were as follows:

	August 22, 2013
	\$
Assets	
Cash and cash equivalents	1,171
Prepaid expenses	-
Reclamation bonds	67,500
Exploration and evaluation assets	135,000

(a) Rivière Doré

On November 30, 2011, the Company signed an agreement with Cartier Resources Inc. ("Cartier") to acquire 100% of the Rivière Doré Copper Nickel property ("Rivière Doré") located southeast of the town Val D'Or, Quebec. This agreement superseded the agreement signed with Cartier in January 2011. In consideration for a 100% interest in Rivière Doré, the Company paid \$150,000 in cash, issued 2,000,000 common shares of the Company with an estimated fair value of \$550,000 and granted a royalty of 1% of the net smelter return in connection with ore extracted from the property. The Company is also committed to a 2% royalty payment of the net smelter return on 36 of its 1,052 existing claims on the property. This transaction closed on December 15, 2011.

Copper One Inc.

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

8. Exploration and evaluation assets (continued)

The Company has also agreed to pay to Cartier an amount equal to 2% of the net present value shown in a bankable feasibility study on Rivière Doré, payable in cash in three equal installments over the 18-month period from the commencement of commercial production on the property.

There has been a suspension on the existing claims comprising the Rivière Doré property since 2011 as a result of discussions between the Company, government officials and the Algonquin Community of Barriere Lake (“ACBL”) in relation to the property. The suspension term is scheduled to end on July 3, 2015. The ACBL reaffirmed through a press release on March 13, 2013, their opposition to the Company’s proposed exploration activities related to the Rivière Doré project.

(b) Queylus

On January 23, 2012, the Company entered into an agreement with Lounor Exploration Inc. (“Lounor”) to acquire 100% of the Queylus copper gold property, located near the town of Chibougamau, Quebec. Under the terms of the purchase agreement, the Company acquired 100% of the Queylus property by paying \$23,750, issuing 475,000 common shares of the Company valued at \$61,750 and granting royalties ranging from 1% to 2% of the net smelter return in connection with ore extracted from certain claims comprising the property. In connection with the transactions contemplated under the purchase agreement, the Company entered into an agreement with SOQUEM Inc. (“SOQUEM”) whereby SOQUEM agreed to renounce its right of first refusal over certain claims comprising the Queylus property in consideration for the Company paying \$2,500 and issuing to SOQUEM 50,000 shares of the Company valued at \$6,500. This transaction closed on August 7, 2012.

On February 8, 2012 the Company signed a purchase agreement with Diagnos Inc. (“Diagnos”) to acquire a 100% interest in certain claims (the “Claims”) contiguous to the Queylus copper gold property. Under the terms of the purchase agreement, the Company has acquired 100% of the Claims by paying \$10,000, issuing 175,000 common shares of the Company valued at \$52,500 and granting a royalty of 2% of the net smelter return in connection with ores and concentrates extracted from the property underlying the Claims. The purchase agreement provides that the Company has the right to reduce such royalty from 2% to 1% at any time by paying to Diagnos \$1,000,000 in cash. The Company has allowed the Diagnos claims to lapse. As at December 31, 2014, the Company wrote off \$62,500 related to the carrying value of Diagnos claims.

9. Share Capital

Preferred Shares

Authorized: unlimited, without par value
Issued and outstanding: nil preferred shares

Common Shares

Authorized: unlimited, without par value
Issued and outstanding:

Common Shares	Number of Shares	Amount
Balance, December 31, 2013	66,533,854	\$ 16,934,798
Shares issued for debt settlement (i)	2,000,000	80,000
Balance, December 31, 2014 and March 31, 2015	68,533,854	\$ 17,014,798

- (i) On July 22, 2014, the Company issued 2,000,000 common shares at a deemed price per share of \$0.05 in settlement of certain accounts payable. The fair value market value of shares issued in the settlement of debts was \$80,000 based on the share price of the Company on the date the debt was settled. A gain on settlement of \$20,000 was recorded on the Company's consolidated statement of operations and comprehensive loss for the year ended December 31, 2014.

10. Share-based payments reserve

The Company has a stock-option plan whereby the Company may grant to directors, officers, employees and consultants options to purchase shares of the Company. The plan provides for the issuance of stock options to acquire up to 10% of the Company's issued and outstanding capital. The plan is a rolling plan as the number of shares reserved for issuance pursuant to the grant of stock options will increase as the Company's issued and outstanding share capital increases. Options granted under the plan will be for a term not to exceed 5 years.

During the three months ended March 31, 2015, no stock options expired (three months ended 2014: 160,000 options expired, total of \$28,967 recorded against deficit).

	Number of options	Weighted average exercise price	Estimated Grant Date Fair Value of Options	Number of warrants	Weighted average exercise price	Estimated Grant Date Fair Value of Warrants	Total

10. Share-based payments reserve (continued)

STOCK OPTIONS:

As at March 31, 2015, outstanding options to acquire common shares of the Company were as follows:

Expiry Date	Number of Options Outstanding	Number of Options Exercisable	Exercise Price (\$)	Estimated Grant Date Fair Value (\$)
28-Nov-2016	300,000	300,000	0.35	60,281
06-Feb-2017	350,000	350,000	0.35	72,008
27-Sep-2017	155,000	155,000	0.16	20,210
22-Feb-2018 (i)	350,000	350,000	0.10	24,717
14-May-2019 (ii)	3,965,000	3,965,000	0.07	265,655
03-Jul-2019 (iii)	100,000	100,000	0.07	6,700
	5,220,000	5,220,000	0.11	449,571

- (i) The grant date fair value of the 350,000 stock options granted on February 22, 2013 exercisable at \$0.10 and expiring on February 22, 2018, was estimated using the Black-Scholes option pricing model with the following assumptions: vested 3 installments over 2 years, expected dividend yield of 0%; expected volatility of 111% (at the date of issue); risk-free interest rate of 1.40% and an expected life of 5 years.
- (ii) The grant date fair value of the 3,965,000 stock options granted on May 14, 2014, exercisable at \$0.07 and expiring on May 14, 2019, was estimated using the Black-Scholes option pricing model with the following assumptions: vested immediately, expected dividend yield of 0%; expected volatility of 120% (at the date of issue); risk-free interest rate of 1.50% and an expected life of 5 years.
- (iii) The grant date fair value of the 100,000 stock options granted on July 3, 2014, exercisable at \$0.16 and expiring on July 3, 2019, was estimated using the Black-Scholes option pricing model with the following assumptions: vested immediately, expected dividend yield of 0%; expected volatility of 120% (at the date of issue); risk-free interest rate of 1.52% and an expected life of 5 years.

The Company recorded stock based compensation of \$3,090 during the three months ended March 31, 2015 (March 31, 2014: \$7,724).

The weighted average remaining contractual life of outstanding options and exercisable options as of March 31, 2015 is 3.70 years (March 31, 2014 – 1.06 years).

11. Related party transactions and balances

During the three months ended March 31, 2015 and 2014, the Company entered into the following transactions in the ordinary course of business with related parties that are not subsidiaries of the Company.

	Purchase of goods and services Three months ended March 31,	
	2015	2014
Forbes & Manhattan, Inc.	\$ 75,000	\$ 75,000

Mr. Stan Bharti is the Executive Chairman of Forbes & Manhattan, Inc. The Company is part of the Forbes & Manhattan Group of Companies.

The Company shares its office space with other companies who may have similar officers or directors. The costs associated with this space, including the provision of office equipment and supplies, are administered by 2227929 Ontario Inc, to whom the Company pays a monthly fee. 2227929 Ontario Inc. does not have any officers or directors in common with the Company.

The following balances were outstanding at the end of the reporting period:

	Amounts owed to related parties Three months ended March 31,		Amounts owed by related parties Three months ended March 31,	
	2015	2014	2015	2014
Forbes & Manhattan Inc.	\$ 282,500	\$ -	\$ -	\$ -
Scott Moore	\$ 14,125	\$ -	\$ -	\$ -
Mason Graphite Inc.	\$ -	\$ -	\$ -	\$ 115,965

Mr. Scott Moore, the Executive Chairman of the Board of Directors, President and Chief Executive Officer of the Company, is a director of Mason Graphite.

Mr. Paul Cowley is on the board of both the Company and Cornerstone, purchaser of the Company's formerly wholly-owned subsidiary Copper One USA (see note 5).

Mr. Benoit Gascon is on the Board of Directors of both the Company and Mason Graphite Inc.

Compensation of Key Management, Directors and Officers

The remuneration of directors and other members of key management personnel during 2014 and 2013 were as follows:

	Three months ended March 31,	
	2015	2014
Short-term benefits	\$ 122,500	\$ 97,500
Share-based payments	3,090	7,724

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

The remuneration of directors and key executives is determined by the remuneration committee having regard to the performance of individuals and market trends. See Note 12.

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

12. Commitments and contingencies

Contractual Obligations	Payments (Receipts) Due by Period				
	Total	Less than 1 Year	1 – 3 Years	4 – 5 Years	After 5 Years
Minimum commitment under management contracts (i)	\$ 362,000	\$ 362,000	\$ -	\$ -	\$ -
Minimum commitment under Montreal office space lease (ii)	195,000	130,000	65,000	-	-
Minimum commitment under Montreal office sub-lease (iii)	(156,000)	(104,000)	(52,000)	-	-

- (i) The Company is party to certain management contracts. These contracts contain clauses requiring additional payments of up to approximately \$1,020,000 be made upon the occurrence of certain events such as a change of control. As a triggering event has not taken place, the contingent payments have not been reflected in these consolidated financial statements. Additional minimum management contract commitments remaining under these contracts approximate \$362,000 due within one year.
- (ii) In June 2012, the Company entered into a 52 month lease agreement for office space rental in Montreal, ending on September 30, 2016. The total commitments remaining under this lease agreement is approximately \$195,000 at March 31, 2015.
- (iii) In December 2013, the Company signed a sublease agreement with a third party to rent out the Montreal office space, ending on September 30, 2016. Total rent receivable over the term of the sublease is expected to be approximately \$156,000.

The Company's exploration and evaluation activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

(Expressed in Canadian dollars)

13. Financial instruments

Financial assets and financial liabilities as at March 31, 2015 and December 31, 2014 were as follows:

	Loans and receivables	Assets at fair value through profit or loss	Total
March 31, 2015			
Cash and cash equivalents	\$ 66,276	\$ -	\$ 66,276
Held for trading marketable securities	-	22,500	22,500
Receivables	84,008	-	84,008
Accounts payable and accrued liabilities	(820,167)	-	(820,167)
December 31, 2014			
Cash and cash equivalents	\$ 222,994	\$ -	\$ 222,994
Held for trading marketable securities	-	22,500	22,500
Receivables	53,834	-	53,834
Accounts payable and accrued liabilities	(666,878)	-	(666,878)

The Company's risk exposure and the impact on the Company's financial instruments are summarized below. There have been no significant changes in the risks, objectives, policies and procedures for managing risk during the three months ended March 31, 2015 and 2014.

The carrying values of cash, receivable and accounts payable and accrued liabilities reflected on the consolidated statements of financial position approximate fair value due to the limited terms of these instruments.

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents and receivables. The Company has no significant concentration of credit risk arising from operations. Financial instruments included in receivables consist of receivables from related and unrelated companies. Management believes that the credit risk concentration with respect to these financial instruments is remote.

Liquidity risk

The Company's approach to managing liquidity risk is to endeavor to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2015, the Company had a cash and cash equivalent balance of \$66,276 (December 31, 2014 - \$222,994) to settle current liabilities of \$820,167 (December 31, 2013 - \$666,878). The Company's financial liabilities generally have contractual maturities of less than 30 days.

(a) Interest rate risk

The Company has cash balances subject to fluctuations in the prime rate. The Company's current policy is to invest excess cash in investment-grade deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Copper One Inc.

(Expressed in Canadian dollars)

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

13. Financial instruments (continued)

(b) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars.

(c) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company. The Company's future operations will be significantly affected by changes in the market prices for commodities. Commodity prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for commodities, the level of interest rates, the rate of inflation, and stability of exchange rates can all cause significant fluctuations in commodity prices. Such external economic factors may in turn be influenced by changes in international investment patterns, monetary systems and political developments.

Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over the year.

- The Company does not hold interest bearing debt at interest rates subject to market fluctuations to give rise to interest rate risk.
- The Company does not hold significant cash balances in foreign currencies to give rise to foreign exchange risk.

(d) Fair value

A fair value hierarchy prioritizes the methods and assumptions used to develop fair value measurements for those financial assets where fair value is recognized on the balance sheet. These have been prioritized into three levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Inputs for the asset or liability that are not based on observable market data.

Fair value amounts represent point-in-time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of significant judgment.

At March 31, 2015, the Company's financial instruments that are carried at fair value, consist of marketable securities of which \$22,500 (December 31, 2014 - \$22,500) have been classified as Level 1 within the fair value hierarchy.

Copper One Inc.

(Expressed in Canadian dollars)

Notes to the Condensed Interim Consolidated Financial Statements

March 31, 2015 and 2014 – Unaudited

(Expressed in Canadian dollars)

14. Management of capital risk

The Company considers its capital structure to consist of its cash and cash equivalents, common shares, stock options and warrants. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its mineral properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares and, acquire or dispose of assets.

In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to invest its short-term excess cash in highly liquid short-term interest-bearing investments with short term maturities, selected with regards to the expected timing of expenditures from continuing operations.

The Company's capital management objectives, policies and processes have remained unchanged during the three months ended March 31, 2015 and 2014.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSXV") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of March 31, 2015, the Company may not be compliant with the policies of the TSXV. The impact of this violation is not known and is ultimately dependent on the discretion of the TSXV.
